

AGRONOMY

Greenland Equipment is proud to have a relationship with Field2Field Agronomy and recommends them for all your agronomy needs.

FULL SERVICE COMPREHENSIVE CROP CONSULTING PACKAGE

- Review of their soil test results to determine economical and environmentally sound fertilizer recommendations by field and by crop.
- Weekly field scouting that monitors and identifies crop pests including, but not limited to, weeds, diseases and insects and determining control options if necessary using economic thresholds.
- The grower will receive reports that include pest observations as well as recommendations for control of these pests if warranted.
- Timely field inspections to monitor efficacy of a product or recommendation after application and if any further control is needed.
- Timely as needed field inspections to assess non-pest crop management issues such as but not limited to:
 - Environmental issues like frost, wind and hail
 - Harvest management field inspections by field and crop type as well.
 - Include weekly and bi-weekly emailed regional newsletter of agronomic information and issues from the area.
- Please Contact Field2Field for info. Email: field2fieldag@gmail.com Phone: (204) 750-0655

AGRONOMY

The FREE CropRecords app for iPhone and Android devices syncs your maps, soil tests and crop information.

Fertility Plans

- Every farm receives field-based reports for soil tests, maps and fertilizer recommendations. The fertility plan summarizes the farm fertilizer needs.

Zone	Acres	YieldGoal (bu/ac)	NS			Canola		PK
			Layer 1	Layer 3	Layer 4	Layer 1	Layer 2	Layer 4
1	26.7	35	300	5.6	75			
2	36.6	40	300	5.3	75			
3	43.2	45	330	4.9	75			
4	45.5	50	330	4.8	75			
5	48.5	55	330	4.8	70			
6	42.6	55	315	4.8	70			
7	36.7	50	300	4.9	65			
8	21.2	45	250	5.2	60			
9	14.3	30	180	5.6	55			
10	10.3	15	150	5.9	50			
Average:		47.0	301.3	5.0	69.8
